

## Team Progress & Communication Form

Project: Optimus Syria Wind Energy Converter (5 MW Class)

Team Name: Machine bed and Yaw system

Team Leader: Shoukat Abbas

Date: 29th October 2025

### 1. Team Status & Challenges

Q1. Does your team currently face any problems or challenges?

☐ No

☐ Yes: Please specify (lack of data, software issues, unclear requirements):

Yes, because we are relying on many other teams, as long as other teams don't give us values, we cannot do anything.

### 2. Communication & Coordination

Q2. Do you know which other teams you need to communicate with?

☐ Yes

☐ No: Please mention which connections are unclear:

Yes, we have to connect to Load and dynamics team, rotor bearing team, Gearbox and coupling team and Generator team.

Q3. Do you face any communication problems with other teams?

☐ No

☐ Yes: Please describe the issue (slow response, unclear data exchange):

Communication is good as far as they provide us the values on time.

### 3. Software Setup & Tools

Q4. Have all required software tools been installed and are functional?

☐ Yes, all installed and working

☐ Partially installed: specify which ones are missing or not working:

Yes

☐ Not installed yet: reason:

---

#### 4. Technical Report Progress

Q5. Has your team started preparing the weekly technical report?

☐ Yes

☐ No: please explain why:

Yes

Q6. If yes, how many weekly reports have been completed?

☐ 1 ☐ 2 ☐ 3 ☐ 4 ☐ 5 Other: 6

#### 5. Additional Comments or Support Needed

I ask you to please ask other teams to give us the values as soon as possible, like the load team.  
We need loads on the tower top so we can design the yaw bearing and the number of yaw drives.

Team Leader Signature:

A handwritten signature in blue ink, reading "Shoukat Abbas" with a stylized flourish at the end.
