

Weekly Report: Rotor Blade Structures
Team Leader: Bhima Babu Masare (bhima-babu.masare@stud.hs-flensburg.de)
Team Members: Anudeep Allanki (anudeep.allanki@stud.hs-flensburg.de)
Dongsuk Kim (dongsuk.kim@stud.hs-flensburg.de)
Mithun Shetty (mithun.shetty@stud.hs-flensburg.de)
Week Number: [Week 32, 27th to 11th August 2025]

1. Summary of Progress This Week –

- We had a brief meeting with the fellow Team Members
- We helped each other in installing the necessary softwares needed to be learned before the Project gets started
- I assigned the roles to the Team Members and gave them the complete overview of softwares to be learned.
- We went through the Research Papers which Prof. Alhrshy had told to view.

2. Next Week's Plan –

- Solving the doubts of Team Members with Softwares
- To have a special meeting Online or Offline (unchanged throughout the month)
- Understand the site of the WEC
- Solve doubts of each other with Group Discussion

3. Request to Head of Project –

- Provide necessary details of the site.
- Need information such as Wind Speed at different height from ground level
- Provide sometime to learn and analyse the site, software, etc.
